Infinigate Nordics announces partnership with Progress

Progress' portfolio of advanced software solutions widens and enriches Infinigate's portfolio, offering Infinigate's channel partners an enhanced opportunity for growth.

Uppsala, Sweden – 8 September 2024 – Infinigate Nordics, part of the Infinigate Group, the leading technology platform and trusted advisor in cybersecurity, cloud and network infrastructure, is proud to announce a strategic partnership with Progress, the trusted provider of AI-powered infrastructure software. This collaboration further strengthens Infinigate Nordics' portfolio of advanced software solutions, providing powerful new capabilities in cybersecurity, data integration and application development for channel partners across the Nordics.

"We are thrilled to partner with Progress and bring their innovative solutions to our reseller community," said Thomas Hagelid, VP Benelux & Nordics. "The addition of Progress to our vendor ecosystem aligns perfectly with our mission to deliver world-class cybersecurity and infrastructure solutions. Together, we will enable our partners to drive business growth and protect critical assets across the digital landscape."

Partnering with Progress, Infinigate Nordics is well-positioned to deliver cutting-edge, secure and scalable technologies that address today's most complex IT challenges. Combined with its own in-depth knowledge, technical expertise and value-added services, it can ensure seamless integration and successful deployment for end customers.

Through the partnership between Progress and Infinigate Nordics, resellers gain access to products within the Progress Infrastructure Management and Digital Experience portfolios, including:

- Progress® Flowmon®: Network observability platform with AI-powered detection for cyberthreats, anomalies and fast access to actionable insights for greater network and application performance across hybrid cloud ecosystems.

- Progress® Kemp® LoadMaster®: Reliable, scalable application load balancing with layered security, available as virtual, hardware and cloud-native, with powerful SaaS management.

- Progress® WhatsUp® Gold: IT infrastructure monitoring software providing visibility into network devices, servers, virtual machines, cloud and wireless environments to quickly find and fix network problems before users are impacted.

- Progress® MOVEit®: Managed file transfer and automation software that helps customers secure sensitive files at rest and in transit, promotes reliable business processes and supports compliance with data security requirements.

"We are excited to partner with Infinigate Nordics, a respected distributor known for delivering outstanding value to channel partners. Together, we will broaden our presence in the Nordic market, providing innovative solutions that meet the evolving demands of modern businesses," said Phil Dunlop, Vice President of Channels & Alliances, Progress.

With this new partnership, Infinigate Nordics continues to grow its network of best-in-class vendors, reinforcing its position as a leading distributor in the technology ecosystem.

About the Infinigate Group
The Infinigate Group, the leading technology platform and trusted advisor in Cybersecurity, Cloud & Network Infrastructure covers over 100 countries across EMEA, Australia and New Zealand. In the 2023-2024 financial year the Infinigate Group revenue reached 2.3B€. Our focus and deep technical expertise on cybersecurity, secure networks and secure cloud for SMB and enterprise set us apart.
